MITSUYO SAFETY CLEAN

324sfc.jp

ecoFRESH series incorporating "graft polymerized macromolecule" patented in six countries including Japan, the US and EU

POINT 1

Adsorption rate of formaldehyde 72 times of the activated carbon

Just place in places of concern such as inside the car, in the bathroom, lockers, shoe racks, pet cages, etc. for powerful deodorization

Ammonia concentration: 20 ppm

After 30 minutes

0.4ppm
No detection after 120 minutes

Trimethylamine (pet odor) concentration: 18 ppm

After 30 minutes

No detection

POINT 2

Not just an air freshener

Accurately absorbs and purifies harmful substances such as formaldehyde and acetaldehyde which cause sick house syndrome

Formaldehyde concentration: 20 ppm

After 30 minutes

No detection

Acetaldehyde (cigarette odor) concentration: 25 ppm

After 30 minutes

14ppm

NO₂ gas concentration: 600 ppm

After 24 hours

No detection^{*1}
Liquid: 0 ppm, gel: 280 ppm

Primary irritation test by specimen

After 24 hours

Evaluation without stimulation^{*2}

POINT 3

NEW!

ecoFRESH PLUS with added sterilizing power

- ✓ Hybrid deodorization based on scientific deodorant with advanced handling of odors and biological deodorant that inhibits the fungi that cause unpleasant odors.
- ✓ Added anti-microbial agent "Langer" conforming to SIAA standard that passed 14^{*3} antibiotic tests such as for Feline calicivirus (substitute for norovirus), SARS virus, O-157, Escherichia coli, and mold.
- ✓ Since soybean amino acid is the main component, it is highly safe in production.

*1 Testing institution: Kanagawa Institute of Industrial Science and Technology *2 Testing Institution: Japan Food Research Laboratories *3 Feline calicivirus, SARS virus, Cereus spores, Bacillus subtilis, highly pathogenic avian influenza virus, enterohemorrhagic E. coli O-157, Methicillin-resistant Staphylococcus aureus, Escherichia coli, Pseudomonas aeruginosa, Trichophyton, Legionella, Salmonella, Candida, Mold

ecoFRESH
 ● VOLUME: 190g ● INGREDIENTS: Graft polymerized macromolecule, gelling agent, water, preservative, perfume (MARINE CITRUS)

ecoFRESH PLUS
 ● VOLUME: 240g ● INGREDIENTS: Pocket1 - amino acid, benzalkonium chloride, gelling agent, water, sodium laurylamidopropionate, propylene glycol / pocket2 - graft polymerized macromolecule, gelling agent, water, preservative

● TO USE: Remove the inner lid, re-tighten the outer lid, and place in a location where odor is a concern. Change if the gel becomes dry and shrinks.
