PRODUCTS

"324 eco" series are born the unique and exciting technology.
Our products are focuses reliable and effective with useful and long lasting.
Be safety to People and Nature.
"Good to use!" "Never experienced!" "Never seen!"
We will deliver such feeling to you.

Adjust with 5 Powers SPIRULINA+H2

Mango Leaf Extract.
Nobiletin
Vitamin D

Made in Japan
Registered U.S.A. FDA

H2 + Minerals
ROCK SALT

Caffeine Replacement
MANGO LEAF EXTRACT

Lack of modern people
VITAMIN D

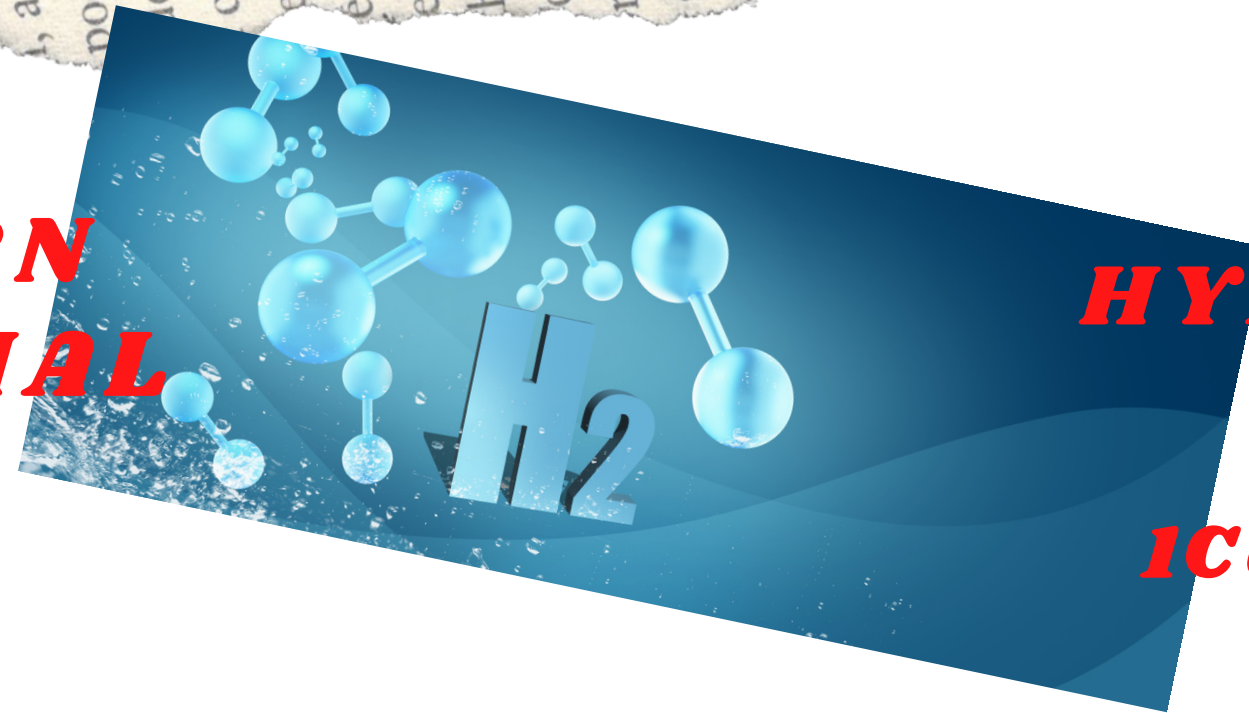

Carcinogenesis Control
Anti-dementia Ingredients
NOBILETIN

ANTI-AGING
ANTIOXIDANT

/ 1 capsule**

Body Condition by Oxidation Reduction Potential

Ajust 5 powers

1

Spirulina: Spirulina, a member of the cyanobacteria family of microalgae, was created 3.5 billion years ago and has been eaten around the world as a valuable source of nutrition since the time of the Mayan civilization. It is the "king of superfoods" as it contains more than 60 types of nutrients including vitamins, minerals, protein, dietary fiber, and plant pigments that show antioxidant effects in good balance. It has attracted the attention of the United Nations and NASA.

2

RockSalt(H₂+mineral): Hydrogen, with its excellent antioxidant properties, reduces and decomposes active oxygen species that can be the source of rust in the body. In particular, only hydrogen can break down the active oxygen that forms deep in the cell membrane. In addition, the rich minerals that are said to be necessary for the human body are effective for beautiful skin and health.

3

Mango leaf extract: a dope-free caffeine substitute of note. A functional ingredient that has been shown to improve athletic performance, brain function (concentration, calculation and anti-stress), and blood sugar and lipid metabolism. It has received the Frost & Sullivan "New Product Innovation Award" and the Vitafoods Europe 2019 "Best Research Project Award".

4

Nobiletin: In addition to suppressing the rise in blood sugar levels, nobiletin has been attracting attention for its role in inhibiting the development of onset of cancer and its effectiveness in the prevention and treatment of chronic rheumatism. Recent research has shown that nobiletin has the following anti-dementia effects: (1) amelioration of memory impairment, (2) inhibition of brain cholinergic neurodegeneration, (3) inhibition of A β deposition, which is believed to be the causative agent of Alzheimer's disease, and (4) nerve growth factor (NGF) effects.

5

V.D: Vitamin D is one of the hormones necessary for strong bones. However, 80% of Japanese people are lack in vitamin D and 40% are deficient in it. To combat vitamin D deficiency, countries such as the United States, Canada, India, and Finland have also implemented policies to increase vitamin D levels in food products to increase the level of vitamin D in the population.

OEM supplement available:Hydrogen, whitening, Spirulina etc.

SBMPLUS CO., LTD.
